## Sharing Skills

### **SHARING SKILLS**

**Increasing the labour market relevance of VET provision and reducing skills mismatches and shortages in the new booming "Sharing Economy" sector.**

## News from the project

### **Sharing Skills project completed**

The project entitled was completed at the end of October 2017. Within the project following intellectual results were worked out:

- ⇒ "Report on Sharing economy penetration",
- ⇒ "Occupational Standards Identification for Sharing Economy Practitioners. A comprehensive Skill and Knowledge Profile Analysis",
- ⇒ "Training Module for Sharing Economy Practitioners" and
- ⇒ "Webinar as an e-learning tool"

The intellectual results are available in the "Documents" section of the sharing skills project website.

### **Training Modules realised by the project consortium**

As a result of the last phase of the project, training modules and a webinar has been developed for sharing economy practitioners. The training modules developed within the project "Sharing Skills" turned into video presentations and are available through a custom made platform.

### Consultation on the collaborative economy in the tourism accommodation sector

on of services, the domestic regulatory framework applicable and the possible reasons for the termination of the service provision.

Service providers were invited to respond to a series of questions, with the aim to gather their views on a range of issues related to the provision of collaborative economy tourism accommodation services. The main focus of the questionnaire was on the type of properties offered for rent, the income or other benefits generated by the short-term rental activities, the typical problems or difficulties encountered during the provi-

### Exploratory study of consumer issues in peer-to-peer platform markets

This study investigates five peer-to-peer (P2P) platform markets and identifies the main issues for peer consumers and peer providers from the perspective of consumer policy. Online P2P transactions via platforms present both benefits and challenges for consumers. Policy makers need better understanding of how consumer interests play out on platforms so they can promote a responsible development of these markets.
